

AMC REGENCY 20 THEATRES

October 1, 2007

To Whom It May Concern,

The men's room at the front of our 20-plex theater had a persistent odor problem which no amount of careful janitorial effort could eliminate. Med Supply Of Tampa, Inc. sent in a crew to fog-in their new odor control product Titania, and the next day the men's room smelled very fresh. The odor problem was eliminated. We are very impressed with the performance of this product.

Yours truly,

Hal Garrett
General Manager
AMC Regency 20
