To Whom It May Concern:

Through the use of an education program and the application of Titania, the Avengers were able to significantly decrease the number of infections that our football team incurred this past season. The application of Titania vastly eliminated the odor, bacteria and mold in our locker room and training facility. As an Athletic Trainer, I would highly recommend the use of Titania to decrease the odor and help prevent the spread of infectious bacteria. I was extremely pleased with the service and professionalism I received from Brian Finocchio and Jim Lusco. I am pleased to say that we will use Titania in the future.

Sincerely,

Chris Phillips ATC, CSCS
